

DNAA Shooting Calendar 2015

Norton Archers Banding System

We know that for those archers wanting to get into competitions for the first time, the sheer range of rounds available can be daunting. So this year, as a trial, we've broken down the target archery competitions on the County Shooting Calendar into 'bands', based on the colours of the target, to try and provide a guide to which are suitable competitions for archers with different levels of experience. Feedback on this trial would be welcome, and please note that it applies to senior archers only as junior competitions are already broken down into age-appropriate rounds.

Please also remember that this guide is aimed at encouraging people into competitions, so if you're a Novice archer please don't feel restricted to entering White and Black Band competitions - go for higher bands if you feel ready!

Key

	Green Band Competition:	Fun shoot, suitable for all
	White Band Competition:	Suitable for Novice archers (first year of shooting)
	Black Band Competition:	Suitable for Novice archers and first-time competitors
	Blue Band Competition:	Suitable for ambitious first-time competitors or as a progression from Black Band competitions
	Red Band Competition:	Similar to Blue Band competitions, but these competitions are also Record Status. This gives you the opportunity to earn badges but there are higher expectations about entrants' ability (not suitable for archers who are unable to regularly hit the target at the farthest distance)
	Gold Band Competition:	Suitable for archers wishing to gain National Target Rankings
	Purple Band Competition:	Closed competition for archers on the County Squad

January

 11th Ponteland Indoor Vegas

February
